ABU ROBOCON 2010 CAIRO-EGYPT
<http://www.roboconegypt2010.com/>

No. 151 Date of Issue: 15 July 2010

Hong Kong Institute of Vocational Education (Tsing Yi) represents Hong Kong

This will be the first time for us Team "Autobots Fighter" to participate in the ABU ROBOCON.

The team consists of 15 students who are studying Electrical Engineering, Mechanical Engineering, Creative Toy and Intelligent Product Technology at the Department of Engineering.

In this competition, we have a chance to cultivate our passion for learning while polishing necessary skills and know-how to succeed. This will be a valuable experience for us to put into practice what we have learnt at school such as machining, motion control, motion sensing, intelligence control, project management, and microcontroller programming.

Report by Mr Edmond Leung, Teaching Associate, Hong Kong Institute of Vocational Education (Tsing Yi)

Congratulations on Universiti Teknologi Malaysia!

Malaysia National Robocon 2010 was held at Universiti Kebangsaan Malaysia, Bangi, Selangor Darul Ehsan on 27 June 2010.

In Malaysia, only 3 teams per institution can participate in the contest. This year, 55 teams took up the challenge.

The final round was against 2 teams from Universiti Teknologi Malaysia, UTM A vs UTM B. As a result, UTM B won the ticket to ABU ROBOCON 2010 CAIRO.

For UTM, this is going to be their 6th participation in the ABU ROBOCON.

Cooperation by Ms Haryati Hani Abdul Aziz, Producer, RTM-Malaysia
