ABU ROBOCON 2011 BANGKOK
<http://aburobocon2011.com/>

No. 156 Date of Issue: April 13 2011

Nirma Institute of Technology represents India!!

What a setup! The boxing ring of the stadium was full of cheering crowd.

The four day event saw some very heated action on the game field.

The Indian National Robocon was jointly organised by Doordarshan (Prasar Bharati of India) and Maharashtra Academy of Engineering (MAE) at Shiv Chhatrapati Krida Sankul, Balewadi in Pune from March 2 to 5. The contest attracted 57 institutes of national repute and Nirma Institute of Technology, Ahmedabad was declared as national winner. They will represent India in the ABU ROBOCON 2011 Bangkok on August 28. This is will be their 5th participation in the international arena.

Robocon, besides providing a great learning opportunity to the budding engineers and their teachers towards highlighting the increasing role of robotics in the days to come, also offers a scintillating spectacle to watch. DDI has been promoting this unique annual robotic contest to propagate the significance of scientific development through broadcasting since 2002.

"Doordarshan is watching You" – Mr Yashpal Ramawat, Director Doordarshan Pune.

Top motivators of MAE and DDI. In all, 12 prizes were awarded in different categories.
