

7th ABU MEDIA SUMMIT
ON CLIMATE ACTION AND DISASTER PREVENTION
FROM ATOLLS TO ALPS AND ARID LANDS:
COMMUNICATING THE CLIMATE CHANGE CHALLENGE
 9-10 May 2023 | Maldives

2023 MEDIA SUMMIT @ GLANCE

The 7th ABU Media Summit on Climate Action and Disaster Prevention, to be held in Maldives, is a multi-faceted event with several capacity – building activities before and after the main two-day conference on 9 and 10 May 2023. Below table provides an overview of the whole event, which aims to build the capacity of broadcast media organisations in the Global South to promote Climate Action and Disaster Prevention.

| 7th ABU Media Summit on Climate Action & Disaster Prevention Events Schedule | |
|---|---|
| 6 - 8 May PSM Office | Rough – cut screening for the Global Co-production on Sustainable Tourism |
| 7 & 8 May PSM Office | Final Judging for the 2nd Edition of ABU UNESCO T4P Awards in the 3 categories – Radio/TV/Digital. |
| 9 May CROSSROADS | 7th Media Summit on Climate Action and Disaster Prevention Conference DAY 1 Overview of the global processes in Climate Action and Disaster Prevention in the framework of the Paris Climate Agreement and Sendai Framework for DRR. It will bring together key stakeholders in the DRR process and chart ways for working together with the media to strengthen Early Warnings and Disaster Preparedness. The sessions will be developed together with relevant UN agencies such as UNDRR, WMO, UNESCO and partners from the scientific community. A special focus is the future of Sustainable Tourism, which is a main industry for many countries in the Global South. |
| 10 May CROSSROADS | DAY 2 The second day of the conference will be dedicated to the role of media in advancing Climate Action and Disaster Prevention. It will provide a platform for exchanging experiences and showcasing content as well as ideas for future cooperation between broadcast media organisations in the Global South. |
| 10 May@20PM CROSSROADS | GALA AWARDS NIGHT: ABU/UNESCO TOGETHER FOR PEACE MEDIA AWARDS |
| 11 May PSM Office | Safe and Effective Investigative Reporting on Environmental Crimes Workshop The workshop includes illegal logging, fishing, construction, development, wildlife trafficking and dumping of waste. It provides examples of best practice reporting on these issues, identify under-reported areas of environment crimes, look at the physical and legal risks and establish how to mitigate those risks. |
