

# ABU TECHNICAL COMMITTEE MEETING 2022

**New Delhi  
India**  
26 - 27 November  
2022

**Doc T-22/10-2**

## DECISION 2/2022

### Instituting ABU Young Engineers' Broadcasting Award

#### ***Considering***

1. that the Engineering Awards and its guidelines were recently reviewed by the select Task Group to evaluate its scope and relevance within the current industry;
2. that the existing Engineering Awards, within its scope mostly targets more experienced and veteran broadcast engineers;
3. that no such avenues exist within the current awards to recognise and encourage innovative and creative contributions made by young engineers,

#### ***Recognising***

1. that other awards instituted to recognise outstanding contributions by broadcast engineers has made an impact in the said purpose;
2. that a lack of such an award was noted by the Engineering Awards review task group and was noted among its recommendations;

#### ***The ABU Technical Committee Decides***

1. To institute the ABU Young Engineers' Broadcasting Award to recognise outstanding contributions made by young engineers within the ABU broadcasting member organisations in the region.
  2. That the secretariat will develop a set of appropriate guidelines and selection modality for this award and present it to the next mid-year meeting of the Technical Bureau for their approval.
  3. That the ABU Young Engineers' Broadcasting Award be included as part of the annual awards in 2023.
